

Mursion® Experience Installation Guide

Welcome to the new and exciting Mursion® Experience. The link you have received will allow you to download the Mursion® Experience. Please make sure you have an admin account to install the software or have a technical associate available to do so. The installation does not need administration privileges to run once installed. Once downloaded, run the installation and this guide will walk you through every screen you will encounter.

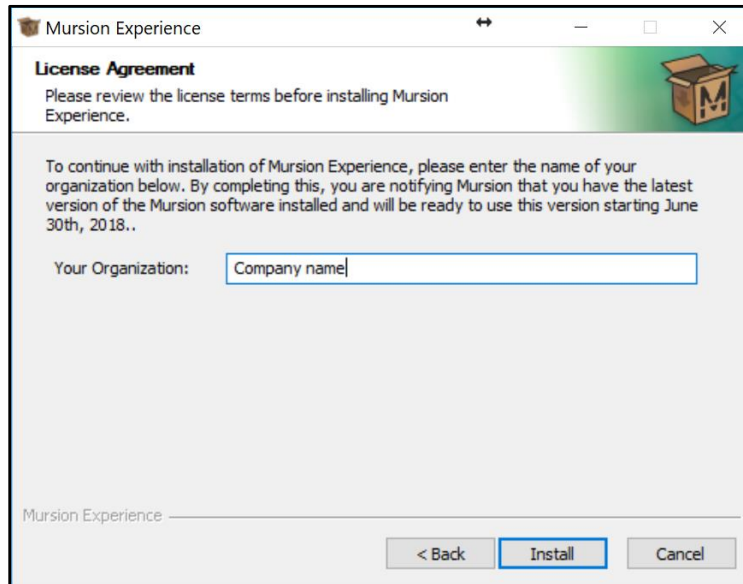

End User License Agreement Screen

Make sure to read the Mursion End user license agreement and click on I agree to continue the installation process.

Licensing Terms Screen

Please make sure to add your company name in the blank space and click Install.

Software Installation and Completion Screen

Please wait while the new software is installed. This process can take up to 5 minutes.
